

A610

1991 saw the launch of the A610. This model underwent a great deal of re-styling inside and out but was still recognisable as a GTA derivative. The chassis structure was extensively reworked but the central box principal remained the same. The front was completely re-designed. The interior and switchgear were also improved. Air-conditioning and power steering were fitted as standard.

Engine

V6 2975cc 250BHP 350Nm

0-100km/h

5.7s

Top speed

165.6mph (265km/h)

1000m standing start

24.9s

13.9s

Kerb weight

1420kg

In 1992 the special edition A610 'Magny-Cours' was introduced featuring unique green pearlescent paint, chrome plated tail pipes, green centered wheels, Magny-Cours inscription on the doors and a special leather interior. Not officially available in the UK but some RHD cars were specially ordered with a similar specification.

Performance figures quoted are factory figures.

Production Numbers - Right Hand Drive

Production numbers for RHD cars were extremely low.
